CONDITIONS OF SALE

FIRST - Horses are offered for sale according to the laws of the State of TEXAS. The highest bidder will be the Buyer. Immediately after the horse is designated as sold, the bidder recognized as the Buyer by the auctioneer will be presented with a Buyer’s Agreement. The Buyer’s Agreement will show the Hip number, name of the horse, and the selling price. The Buyer must immediately and legibly complete the required information and sign this agreement. The Buyer shall present picture identification (such as a driver’s license) to confirm information to auction staff at time of signing. Presentation of the Buyer’s Agreement to anyone other than the bidder recognized by the auctioneer will not entitle that person to right, title, or ownership of the horse. If any dispute arises between two or more bidders, the horse in dispute shall immediately be put up again for advance bids. If there be no advance the horse shall go to the person from whom the auctioneer recognized the last bid. The auctioneer will decline any bids made by parties who have defaulted in former purchases or by persons who in his judgment, are not responsible bidders. Rights of consignors to bid are reserved unless otherwise announced. Consignors may authorize auctioneer, or others, to bid on their behalf.

SECOND - BUYERS ASSUME ALL EXPENSES AND RISKS ON HORSES AFTER THEY HAVE BEEN STRUCK DOWN TO THEM. PAS, Inc. recommends that the buyer obtain Full Mortality Insurance on horses immediately after purchase, however, this decision and risk rest solely with the buyer. Upon receiving payment for the horse the cashier will issue a two part receipt. Buyer must present the pink copy of this receipt to SECURITY at the time the horse is removed from the grounds. All horses must be removed from sale ground by NOON, SUNDAY, November 22, 2009. Failure to remove the horse for any reason will obligate the buyer to pay all costs associated with board, transportation and security of the horse. Security charges of $20 for every hour past noon will apply.

THIRD - A BUYER’S PREMIUM OF 7% OF THE FINAL BID PRICE WILL BE CHARGED TO THE BUYER ON EACH HORSE SOLD. This Buyer’s Premium will become part of the purchase price and will be subject to sales tax.

FOURTH - Professional Auction Services, Inc. may distribute or publish the results of this sale in publications or post the results on it’s web site including such information as the price and buyer’s name.

FIFTH - Terms of sale are cash and payment in full must be made immediately after the sale is over. Pay the cashier in all cases. Payment may be made in the form of cash, personal or business check with proper identification, cashier’s or certified check, valid traveler’s checks, Master Card, Visa or American Express. Checks must be made out to PROFESSIONAL AUCTION SERVICES, INC. In no case may any part of the purchase price be paid direct to the consignor by the purchaser and such payment shall not be valid or entitle the buyer to obtain the horse. ALL SALE TRANSACTIONS MUST BE MADE THROUGH THE PAS, INC. SALE OFFICE. Buyer agrees not to stop payment on check for any reason. A charge of $50.00 will be made on any check that is returned.

SIXTH - If any person shall purchase an animal and not pay for it as prescribed above, the sale management or consignor shall have the right to resell the animal or at their option bring legal action in which event buyer agrees to pay all cost of such suit together with reasonable attorney fees as fixed by the court. In the event of resale the defaulting buyer agrees to pay all costs of resale and price deficiency, if any. Interest of 1-1/2% per month will be charged on the unpaid balance of any account not paid for as set forth in these conditions.

SEVENTH - All registration papers will be withheld by the sale management until all checks clear the bank (21 days) at which time they will be mailed, with completed transfer reports to the buyer. NOTE: If any buyer desires to obtain papers immediately, the horse or horses must be paid for with cash, cashier's or certified check, or personal check accompanied by a Letter of Guarantee issued by your bank. Please call PAS, Inc. office for letter format.

EIGHTH - Every effort has been made to assure correctness of the catalog but Professional Auction Services, Inc., the sale management and auctioneer are not responsible for errors or omissions and assume no liability on the part of the seller as to any such statements, either verbal or written regarding horses sold. All statements and corrections at the sale will supersede the catalog.

NINTH - Professional Auction Services, Inc., auctioneers and clerks do not act for or represent the buyer or seller, but merely provide a medium for bringing together the buyer and seller for the purpose of sales transactions. Professional Auction Services, Inc. and sales personnel assume no responsibility whatsoever to anyone for blemishes, defects, the physical condition or health of any horse and make no warranties or representations of any kind in the sale and hereby SPECIFICALLY WAIVE ALL IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY. ALL RESPONSIBILITY LIES BETWEEN THE CONSIGNOR AND THE BUYER.

TENTH - Buyers and spectators are cautioned to be careful while on the grounds and particularly while horses are being sold or shown in the sale ring. THE SALE MANAGEMENT IS NOT RESPONSIBLE FOR ACCIDENTS.

ELEVENTH - Stargate Sport Horses assumes NO responsibility for the sale or for accidents on the grounds.

TWELFTH - Broodmares will be guaranteed only to have been bred to stallions as indicated. Any purchaser of a broodmare sold in this sale may have the mare examined by an acceptable veterinarian within 12 hours after the start of the sale and before the horse leaves the sale premises. Any broodmare so examined whose pregnancy or breeding soundness status is found not to be as represented at the time of sale, may be returned to the consignor as unsold, and the consignor shall pay veterinarian’s fee for examination. Otherwise, no guarantee is made of pregnancy status or eventual foaling unless made specifically by consignor. No return privileges or live foal guarantees accompany mares unless stated by consignor with proof in writing of such agreement issued by stallion owner.

THIRTEENTH - Bidding - there shall be an upset price of $1,000 on any horse offered. If an opening bid of the upset price is not received the horse or pony shall be led out as unsold. Minimum acceptable advances in bidding are $25 to $2,000, $50 to $5,000 and $100 thereafter.
FOURTEENTH- Consignor has the responsibility to notify the sales management in writing prior to the sale of the fact that the horse is a CRIBBER, a WEAVER, UNSOUND OF EYES or WIND, PARROT MOUTH for mares and stallions only, a CRYPTORCHID, MONORCHID or RIDGLING, has been NERVED, has FOUNDANTED prior to the sale, has a LAMENESS DUE TO a navicular disorder, osteoarthrosis of a joint or other bone abnormality or neurological disorder including, but not limited to, EPM or wobbles. Mares and stallions will be exempt from the lameness provision as stated above if they are represented only as breeding animals. If a buyer discovers such a condition in the horse which was not stated to the sales management by the consignor, as required and specified above, and NOT stated in the catalog or announced at the time of the sale, and the horse had such a condition at the time of sale, the buyer may have grounds to reject the horse. The buyer must deliver to Professional Auction Services, Inc. a WRITTEN STATEMENT FROM A QUALIFIED VETERINARIAN within five (5) days of the date of the sale establishing the existence of the condition, IN DETAIL. The veterinarian’s statement shall include a description of the procedures performed during the examination, the results which caused the veterinarian to diagnose the condition, and state how it was determined that the condition existed prior to the sale. If the evidence is conclusive, the consignor agrees to accept the return of the horse and hereby authorizes Professional Auction Services, Inc to refund the purchase price. If the veterinarian’s statement is inconclusive or is not complete with the information required above, Professional Auction Services, Inc. may disallow the claim and pay the consignor. In the event that a consignor does not agree with the buyer’s veterinarian’s statement, Professional Auction Services, Inc. may hold funds until buyer and consignor resolve the matter in accordance with Condition Sixteenth.

FIFTEENTH- The consignor has the responsibility to notify the sales management in writing prior to the sale of any unsoundness of any nature known to him and they will be announced at time of sale. BUYER HAS THE RIGHT TO HAVE A LIMITED POST PURCHASE EXAMINATION BY A VETERINARIAN WITHIN 12 HOURS OF THE START OF THE SALE AND BEFORE THE HORSE LEAVES THE SALE PREMISES. If a qualified veterinarian finds the horse not to be sound for the advertised purpose, the consignor will accept the return of horse as unsold and hereby authorizes Professional Auction Services, Inc. to refund the purchase price. This examination will be limited to moving the horse for soundness on riding horses or show horses of any type, and checking the reproductive tract on breeding horses, as well as checking for conditions as stated in Condition Fifteenth. Positive reaction to flexion tests and hoof testers does not constitute unsoundness, if the horse is moving sound. These tests should be a part of a pre-purchase examination. THE BUYER HAS THE RESPONSIBILITY TO EXAMINE HORSES BEFORE BIDDING.

SIXTEENTH- Disputed Condition - If the consignor disputes the diagnosis by the buyer’s veterinarian for conditions stated in Condition Fifteenth above, that were not stated in the catalog or announced before the horse was sold, then P.A.S., Inc. may appoint an equine veterinarian of its choice to determine the condition of the horse. The examination of the appointed veterinarian shall be limited to the disputed condition. The appointed veterinarian may inspect the horse and may apply such diagnostic testing and procedures as deemed to be appropriate. The appointed veterinarian may also confer with the consignor and the buyer and the buyer’s veterinarian, and may review available veterinary medical history including contact with prior veterinarians having knowledge of the horse, and may review the report and supporting information supplied by the buyer’s veterinarian. The decision of the appointed veterinarian shall be final in all respects and P.A.S., Inc. shall allow or disallow the rejection of the horse by the buyer consistent with the opinion of the appointed veterinarian. The buyer has the duty to present the horse for examination with the appointed veterinarian in cooperation with the veterinarian’s schedule and has the duty to provide board, necessary farrier and veterinary care, and transportation until the dispute is resolved. The appointed veterinarian shall be within a reasonable proximity to the buyer. If rejection by the buyer is allowed by P.A.S., Inc., the consignor shall pay the cost of services of the appointed veterinarian and the buyer may recover from consignor any direct costs as stated in Condition Eighteenth. Risk of loss passes back to consignor immediately upon notice of decision by P.A.S., Inc. to allow rejection by the buyer and consignor shall immediately make arrangements to take possession of the horse.

SEVENTEENTH - The consignor has agreed not to give the horse any drugs to alter soundness or attitude, unless it is disclosed by a statement in the catalog or announcement prior to the horse being sold. If within five (5) days of the sale, the buyer finds the horse to be unsound for the advertised purpose or makes a claim of misrepresentation of attitude by the consignor and a blood test proves positive for a drug that could mask such a problem, the horse can be rejected by the buyer. For a claim to be valid under this Condition the blood sample must be drawn by the sale veterinarian within 12 hours of the start of the Sale and before the horse leaves the sale grounds. Notification of a claim by the buyer under this Condition must be made to Professional Auction Services, Inc. within five (5) days of the date of the sale, by a written statement from a qualified equine veterinarian explaining the diagnosis of any unsoundness or explaining the behavior problem. The funds for the horse will be held pending the results of the blood screen.

EIGHTEENTH - In the event a horse is returned to the consignor in accordance with the conditions Fourteenth, Fifteenth, Sixteenth or Seventeenth, the consignor agrees to pay all reasonable costs involved with the sale and return of the horse, including transportation, board and appropriate sale fees. In the event of legal action over a horse sold in this auction which involves Professional Auction Services, Inc., the Buyer and Seller, jointly and severally, agree to pay all costs incurred by Professional Auction Services, Inc., including reasonable attorney’s fees.

NINETEENTH - The AGE and PEDIGREE given in the catalog for horses selling without registration papers is only approximate and is not guaranteed.

TWENTIETH - IN SITUATIONS OTHER THAN THOSE SPECIFIED IN CONDITIONS FOURTEENTH, FIFTEENTH, and SIXTEENTH THERE IS NO GUARANTEE OF SOUNDNESS OTHER THAN THOSE MADE SPECIFICALLY BY THE CONSIGNOR.

TWENTY-FIRST - Online bidders must register in advance of the Sale to be approved to bid, through HorseAuctions.com or Professional Auction Services, Inc. Amended Conditions Of Sale apply to online bidding and must be agreed to in order to be approved. Conditions Of Sale Amendments for Online bidding are available through HorseAuctions.com or Professional Auction Services, Inc.
BUYER’S RESPONSIBILITY - SOME HELPFUL HINTS

- **The Seller** has a responsibility to announce defects, that they know of, in their horses, particularly those that may affect the soundness of the horse for the purpose they are advertised for. What is a defect to one person, may not be a defect to another.

- **The Buyer** has a responsibility to examine a horse carefully before they bid on it. If you have any particular concerns about conformation faults or defects, size, attitude, stall manners, riding ability or anything else, check it out BEFORE you bid. If you buy a horse on impulse, without shopping it before you bid, you may expect to find some surprises. In that case you still own the horse. The seller is not responsible for you, if you don’t shop the horse. Once you bid on a horse, you are indicating you have shopped enough to satisfy yourself and no one else is responsible.

Some suggestions:

- **READ THE CONDITIONS OF SALE** in the catalog. If you have questions, please call the sale management.

- **CALL OUR OFFICE FOR PHONE NUMBERS OF SELLERS TO GET MORE INFORMATION BEFORE THE SALE.** When you have selected some prospects in your catalog, call the sellers before the sale and ask about the horse. It will save time.

- **Make a list,** written or mental, of the things that are important to you in a horse. Think about the good characteristics you want and also think about the vices, habits or characteristics you do not want in a horse. Consider what negative characteristics you can put up with if a horse can serve your primary purpose well. Go through this checklist for each horse you shop. Ask questions and make sure you get the answers. Do this BEFORE you bid, because after you buy a horse you cannot change your mind if you don’t like the horse.

- **What is the purpose for your new horse?** - Show, recreational riding, racing, breeding, etc. Look for a horse that is bred for or trained for the type of use you need.

- **Conformation** - **Examine the horse carefully** for conformation defects that may affect your use of the horse. Remember, the “perfect” horse has never been found. Decide what characteristics are important to your purpose and make sure these suit you. There are some areas where you may accept some deviations from ideal conformation, if they don’t cause a problem for you.

- **Appearance** - A pretty horse will always get your attention. We tend to fall in love with a horse because of eye appeal, then hope it will suit our purpose. Be sure to look past pretty and see if the horse really suits. Try not to let color be your only criteria. If you want to show or breed for the color breeds, it will be important. The more specific your desire for a certain color, the harder it is to find the right horse for the purpose.

- **Soundness** - Examine the horse carefully for any blemishes that may cause soundness problems. Watch the horse move and watch for lameness. Check the horses eyes for obvious defects. Try to notice if the breathing sounds normal. If you see something that concerns you, either mark this horse off your list or get a veterinarian to examine the horse before you bid on it.

- **Veterinary examination** - Before you buy a horse, you may have a veterinarian examine it in any way you want and the seller will allow. In most cases, a general examination by a veterinarian will do quite well. This would involve a visual examination for defects, watching the horse move, possibly flexion tests and hoof testers and checking the eyes, wind and heart. Some buyers have made arrangements with the seller and a veterinarian to meet early at the sale grounds and allow time for an extensive prepurchase exam, including radiographs. Other buyers have contacted sellers to get a veterinarian to examine the horse before it comes to the sale. REMEMBER, AFTER you purchase a horse the veterinary examination allowed by the Sale conditions is very limited.

- **Stable Manners** - If this is an important issue for you, then make sure you go to see the horse in the stall. Ask the seller questions about how the horse is in the stall or in the pasture, alone or with other horses, how is it to groom, shoe, clip, load, haul or anything else that concerns you. Also ask about cribbing or weaving. To some buyers these items may not be as important as winning in the show ring. To others, this area may be the most important characteristic to consider.

- **Drugs and medication** - We feel this is not as much of a problem as some people suspect. If you are concerned about a horse being drugged to mask a soundness or performance problem, we can suggest a way to check that, if a problem actually arises. You may have the veterinarian draw a blood sample at the sale, at a small cost, and hold it pending the need to run a drug screen. The cost of a drug screen is estimated to be $100 to $150. If after a week you have not experienced problems, that could have been masked by drugs, the veterinarian can discard the blood. If you have a problem that you suspect was masked by drugs, and you had a sample drawn at the sale, contact the sale management immediately and the account will be held for review. We do not condone use of drugs to misrepresent a horse. If the presence of a drug is found that masked a problem, the seller will get the horse back, if you have notified us in time. Please bear in mind that just because you might not get along with your new horse, doesn’t mean the horse was drugged. Most horses need to adjust to new owners and places, and owners need to adjust to the horse.

www.professionalauction.com
• **Riding horses** - Watch the demonstration at the sale. If you are looking for a riding horse make sure the owner’s statement in the catalog says the horse is broke to ride, see it ride or better yet, ride it. If you want a horse for children or beginners, make sure the owner’s statement in the catalog mentions the horse has experience with this type of rider and have the rider try the horse. If you are looking for a show horse, watch the demonstration to see it in a show ring situation and talk to the seller about maintenance and preparation.

• **Breeding horses** - If the owner’s statement in the catalog does not give the complete breeding history, you may contact the seller, as well as checking the appropriate breed association, for additional information. For mares that are not in foal, check for visible defects in breeding conformation. If the seller does not have results of a recent reproductive examination, culture or uterine biopsy, you may want a veterinarian to check the reproductive tract, as much as they can, at the sale and base your decision on that information. For stallions, check for visible defects in breeding conformation. On young stallion prospects check for reproductive maturity consistent with their age and make sure both testicles are down.

• **Insurance** - PAS, Inc. recommends that the buyer obtain Full Mortality Insurance on horses immediately after purchase, however, this decision and risk rest solely with the buyer.

• **WHAT TO DO IF SOMETHING ABOUT THE HORSE WORRIES YOU** - If you see or hear something about a horse that really worries or bothers you, and you can’t get the answers or information to make you feel comfortable, then “Do Not Buy The Horse.” If there are some things about the horse that make you really want it any way, talk to the Sale manager. If you then don’t have your answers, pass on that horse. There will always be other horses available.

• **LISTEN FOR ANNOUNCEMENTS** like selling "breeding sound only” or "As Is” which mean the horse may not be sound to ride.

• **YOUR PROTECTION IS YOUR RESPONSIBILITY**. Please examine horses carefully before you bid and listen carefully to announcements made while the horse is in the Sale ring.

**IT IS THE AUCTIONEERS JOB TO HELP DETERMINE THE PRICE.**

**IT IS YOUR JOB TO DECIDE WHICH HORSE TO BID ON.**

---

**IMPORTANT NOTICES**

Buyer’s, sellers and spectators are cautioned to be careful at any time they are around horses.
