

Records Set at Largest Ever Georgia Fall Sale

Records were set in nearly every statistical category at the Georgia Fall Sale. New same auction records were set in most categories with the largest increase coming in the price of the high selling horse, up thirty percent (30%) and the average sale price for the top twenty five horses increasing by eighteen percent (18%). *"This was the biggest crowd we have ever had at a Georgia Fall Sale,"* said Tim Jennings, Vice President of Professional Auction Services, Inc. *"The buying public told all of us what the real market value of these horses was on that day."*

The overall average sale price increased by five percent (5%) even though the number of horses cataloged for the sale increased by sixty nine horses or thirty eight percent (38%). The percentage of completed sales dropped to sale low of sixty eight percent (68%). *"The market is starting to adjust itself as part of a normal economic cycle. The values of the lower end horse is softening pretty quickly,"* said Jennings. *"It is just part of the natural cycle of the horse business. A lot of small breeders are going to be effected by this. Right now, many of them are working off of last year's price list."* The highest no sale rate was in the Paint market

The sale was moved to a new building at the Georgia National Fairgrounds. The move allowed for the use of better stalls and the sale was in the same building as the stabeling and the sale office. The sale was held in conjunction with the Georgia Quarter Horse Association Futurity.

The Georgia Fall Sale was produced by Professional Auction Services, Inc. of Leesburg, Virginia. Professional Auction Services, Inc. was founded in 1978 by Mike Jennings and Tim Jennings and has managed over 160 Horse Auctions with sales of nearly \$70,000,000.00. Auctioneers for the Sale were Mike Jennings and Tim Jennings of Professional Auction Services, Inc.

For complete results and further information contact Professional Auction Services, Inc. at (800) 240-7900.
